

Dear FCC Board Members:

As a hard working American, I am very disappointed that you are even entertaining the issue that is being brought before your governing body by the National Association of Broadcasters.

America is great because as citizens we have many choices. We can decide what we want to do, what car we want to drive, living where we want to live, I think you get my point. By giving in to the demands of the NAB, you are taking my choice away. I choose to listen to XM because it is better. I choose to listen to XM because of the variety. I choose to listen to XM because I can get a traffic and weather report at 2am.

Do not take that choice away from me. Do not let me lose confidence in the FCC to be fair to all Americans.

Very truly yours,
Andrew P. Madden
